Detailed Action

Response to Amendment

Claims 1-30 are pending. This action is in response to the remarks received January 5, 2006.

Drawings

The Examiner accepts the drawings filed on January 5, 2006.

Response to Arguments

The rejection of claims 1-30 under 35 U.S.C. 102(b) as being unpatentable over Kitchen et al (US 6,289,322) is maintained.

Applicant's arguments filed January 5, 2006 have been fully considered but they are not persuasive.

In response to the arguments concerning the previously rejected claims the following comments are made:

A.) In response to applicant's arguments, the recitation non-bill information has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

Art Unit: 3624

B.) Applicant alleges that the prior art made of record fails to teach non-bill information.

The examiner disagrees with applicant's representative since Kitchen teaches non-bill information (col. 3, lines 15-45; figs. 4-6, 9a, 10a, 11, and 14). In other words, Kitchen teaches non-bill information as personal information. For example, in figure 11 Kitchen discloses a page with biller's personal information such as his name and address. At the bottom of the page is the bill. Thus, Kitchen discloses non-bill information in an electronic billing notice.

C.) Applicant alleges that the prior art made of record fails to teach the same document.

The examiner disagrees with applicant's representative since Kitchen teaches the same document (figs. 4-6 and 11). In other words, Kitchen teaches first and second information in the same document when he discloses all billing information in figure 11. The non-bill information is biller's name, address, company's name, etc.

With regards to the claims rejected as anticipated over Kitchen, the examiner would like to point out that the reference teaches the claimed limitations and thus provides adequate support for the claimed limitations. Therefore, the examiner maintains that Kitchen anticipated the claimed limitations.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3624

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
